CROATIAN MEDICAL ASSOCIATION

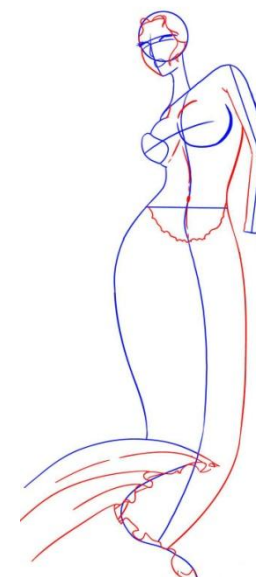

Croatian Society for Plastic Reconstructive and Aesthetic Surgery

CLINICAL HOSPITAL DUBRAVA

Department of Plastic Reconstructive and Aesthetic Surgery

organise:

2nd ZAGREB International Course in 'BREAST RECONSTRUCTION'

Date:

11th – 12th November 2011

Place:

Clinical Hospital Dubrava

Department of Plastic Reconstructive and Aesthetic Surgery

Dear colleagues and friends,

It is my pleasure and joy to invite you to participate in the **2nd International Course in Breast Surgery 2011** that will be held again in Zagreb, Croatia.

The course will take place in the Clinical Hospital Dubrava at Department of Plastic Reconstructive and Aesthetic Surgery, which is accredited by the European Board of Plastic, Reconstructive and Aesthetic Surgery (EBOPRAS) for educational exchange programmes.

The goal of this course is to provide a current, pragmatic overview of techniques and decision making in aesthetic and reconstructive breast surgery. This course will be directed to surgeons with all levels of experience in the breast aesthetic and reconstructive surgery. A distinguished faculty, with more than 30 years experience in the breast surgery, will cover the full scope of breast surgery.

Specifically we have designed the program to be of interest to surgeons considering the use of all kinds of breast implants, expanders and Becker type implants.

The program will include a live surgery (video link) and review of operative techniques and detailed descriptions of the aesthetic and reconstructive surgical procedures.

Panels will focus on the management of critical issues and controversies facing surgeons who perform primary and secondary breast reconstructions, including avoidance and management of complications.

So we are looking forward to welcome you to Zagreb. The Croatian colleagues and I will spare no effort to make this event successful and memorable for all.

Prof. dr. Zdenko Stanec

Speakers:

Prof. dr. sc. Zdenko Stanec, dr. med.

Doc. dr. sc. Rado Žic, dr. med.

Doc. dr. sc. Srećko Budi, dr. med.

dr. sc. Zlatko Vlajčić, dr. med.
